

Pisa

Navicelli Spa - Building "Onda 2008"

Sails and boats, faces and stories of the sea

From the **25th of June** to the **25th of July 2009**

Pisa: city of the sea, of knowledge and know-how. With the tailwind and the sun up high, the Navicelli Spa venue holds the "Sails and boats, faces and stories of the sea" exhibition. A celebration of whom has made of sea, navigation and sails a primary passion.

The exposed works are paintings, photographs, installations of sails: a "route" through all the realization phases of the naval shipbuilding activity.

The sea-inspired paintings by Federica Berner, the internationally acclaimed swiss artist, alternate with a reportage of the artisans at work by Nicola Robecchi and the "famous" sails, like Mascalzone Latino used during the Farr 40 World Cup.

The leitmotif of the show is the hemp, first textile fibre used to produce the sea sails, employed as support for all the exposed works.
